

## PRESS RELEASE

### **Tewatohnhi'saktha selected to create an Adult Education Center in Kahnawake**

#### **FOR IMMEDIATE RELEASE**

**Kahnawake (Wednesday, November 2, 2011)** – The First Nations Human Resources Development Commission of Quebec was recently mandated to select host sites for two Regional Adult Education Centers in Quebec; one serving the English speaking First Nations Communities and the other serving the French speaking First Nations Communities.

Tewatohnhi'saktha Employment & Training Division in conjunction with Listuguj Mi'gmaq Development Center submitted a joint proposal on Oct. 7, 2011 to the First Nations Human Resources Development Commission of Quebec (FNHRDCQ) to manage and operate a Regional Aboriginal Adult Education Centre to serve English speaking First Nations students in Quebec.

It was announced on November 2 2011, that the proposal submitted jointly by Kahnawake and Listuguj was selected as the English center to commence offering services in September 2013. The centers will be independently located in Kahnawake and Listuguj but will function as one entity. In the coming months, the parties will meet with educational funding bodies and stakeholders to determine the next steps toward the realization of the center and to develop a comprehensive business and implementation plan.
