Guidelines

Objective of the *Heads-Up* Program:

This program offers youth aged 13- 17 the opportunity to learn life-skills, and business skills that will be beneficial to the future working careers of the participants during the first 2 weeks. During the final week of the program the skills will be exercised through the operation of a real business. The success of the business will depend upon the participants’ application of life and business skills.

The program also provides enjoyable ice-breaker games, activities and day trips for youth to enjoy and become familiarized with their peers. They also have the opportunity to visit local businesses and organizations to get an idea of possible careers in and around the community.
